SCIENCE AND HISTORY

For Immediate Release

March 24, 2016

***Batman v Superman: Dawn of Justice* Premieres Tomorrow in IMAX at the Fort Worth Museum of Science and History's Omni Theater**

Fort Worth, TX – *Batman v Superman: Dawn of Justice* comes to life on the giant screen in IMAX at the Fort Worth Museum of Science and History's Omni Theater, IMAX Dome on Friday, March 25th.

Director Zack Snyder filmed select sequences of *Batman v Superman: Dawn of Justice* with IMAX® cameras, promising a unique and immersive experience for movie-goers.

Only in IMAX® theaters will these sequences expand vertically to fill the entire screen – delivering unprecedented crispness, clarity, and color. In fact, images filmed in IMAX will expand by up to 40%. The Omni Theater, IMAX Dome is also one of only a few theaters in the world to offer a 70mm film viewing experience.

The Omni Theater boasts an eight-story domed screen and 30-degree stadium seating and remains the largest IMAX dome in the United States west of the Mississippi River. The Omni's 120-foot-wide screen places the audience in the center of the action, producing a sensation much closer to real-life than a conventional movie theater.

Batman v Superman: Dawn of Justice is rated PG-13. Tickets can be purchased online or by phone at 817-255-9540.
